ZhiJin Cave, also called Daji Cave, It was first recovered in April, 1980. The cave is a treasury of the underground arts, at the mean time it is a museum of karst. It is regarded as the wonder of the world. ZhiJin Cave is a dry cave that lost its subterranean river long, long ago. And it is crowned as the king of the cave because of its magnificent scenery.

TianXing Bridge is 6 kilometers away from the HuangGuoShu Waterfall, involving Tianxing potted landscape, Tianxing Cave Scenery and Rock Forests, and merges grotesque mountains, rocks, caves and waters into a whole. It is noted for narrow gorges, aquatic stone forest and karst caves.

Qingyan Ancient Town was originally built in 1378. Nowadays, because of its long history and strong cultural atmosphere, Qingyan Ancient Town has become an attractive destination for numerous domestic and foreign tourists. Due to the local geology, Qingyan Ancient Town was built completely of stone.

HuangGuoShu Waterfall

Huangguoshu Waterfall, a milky way in miniature, is the largest waterfall in Asia. Seventy-four meters (243 feet) high and eighty-one meters (266 feet) wide, it is a scenic marvel in Anshun.

The roar of the water can be heard some kilometers away. Rainbows appear on sunny days, adding a touch of extra beauty to the majesty of the cascade.

Jiaxiu Pavilion was originally built in 1589. The builder Jiang Dongzhi, an imperial inspector, who named it Jiaxiu Pavilion indicate the people in Guiyang are the finest and most talented under heaven. This triple-roofed building stands 20m high and was once known as the landmark of Guiyang.

Wanfeng Lake, or Thousands of Peaks Lake, derives its name from the many peaks which surround it. The lake, located at Qianxinan Bouyei and Miao autonomous prefecture, is actually is a reservoir which was formed from the foundation of Tiansheng Bridge High Dam Power Station.
